15 October 2020

Dear Parents,

We hope you are well and your child is enjoying their lessons back with us in Science.

We are writing to tell you that on the week commencing 9<sup>th</sup> November 2020 we are planning to hold a series of Assessments in Science. These are in place of the Y10 mock exams which would have been held in the Summer of 2020.

This assessment will take place in normal lesson time, and will not disrupt any other subject.

We plan to hold the these over six lessons. Students will be assessed with two Papers in Biology, Chemistry and Physics. The proposed schedule is given below:

Biology	Chemistry	Physics
P1 – Monday 9 <sup>th</sup> Nov Period 3	P1 – Tuesday 10 <sup>th</sup> Period 4	P1 – Thursday 12 <sup>th</sup> Period 1
P2 – Tuesday 10 <sup>th</sup> Nov Period 1	P2 – Wednesday 11 <sup>th</sup> Period 1	P2 – Thursday 12 <sup>th</sup> Period 4

These assessments will be for both Combined and Separate Science. Although, the Combined Science papers will be shorter than Separate Science due to the reduced nature of the course content. Extra concessions for those students who require it will be incorporated into science lessons, and tailored to those individual students.

Students will be examined on a range of questions from Y10. Full themes of what will be examined will be released on SMH to help guide student revision.

If you have any questions regarding this please do not hesitate to contact me.

Yours faithfully

Kate Wainwright (KRW)  
Deputy Head of Science  
KS4 Co-ordinator
