Hot Weather Arrangements This Week

Dear Parents and Carers,

With very warm weather forecast this week, I am writing to outline the arrangements we have put in place to ensure that all students remain safe and comfortable in school.

Please ensure that your child brings a refillable water bottle to school each day. Students will be reminded regularly to drink water and refill their bottles. In addition to our water fountains, drinking water will be available from the Refectory.

Staff will adapt activities where necessary, particularly those involving physical exertion. Classrooms will be kept well ventilated, with windows open and blinds drawn where appropriate to reduce heat. The site team are doing this early in the day to take advantage of cooler morning temperatures.

We are now in our summer uniform period, and students should attend in the appropriate uniform for warmer weather, as outlined in my previous letter.

Supervised indoor spaces (wet weather lunchrooms) will be available for any students who prefer to remain indoors during lunchtime.

Please be assured that staff are taking a proactive and sensible approach to managing the conditions, and we will continue to review arrangements throughout the week in response to the weather.

If your child feels unwell during the school day, they should speak to a member of staff immediately so that appropriate support can be provided.

Thank you for your support in helping us keep all students safe during this period of hot weather.

Kind regards,

James McNamara
Head Teacher
